

Mainframe Modernization

GAIN EFFICIENCIES, IMPROVE SECURITY, REDUCE COST, DELIVER IMPROVED CUSTOMER EXPERIENCE

Businesses around the globe rely on mainframe legacy systems for mission-critical workloads. Today's modern business needs to propel their digital transformation to garner new insights from data, provide a higher quality user experience, increase agility, and speed time to market.

At the end of the day, modern business strives to drive growth and stay ahead of the competition. It's imperative to modernize mainframe applications and data to gain flexibility, scalability, and data insights, yet retain the core strengths of the mainframe platform.

Modernize Your Mainframe Environment: IBM Z, Mainframe Applications, and Data

Hybrid cloud and cloud strategies are deployed at 94% of companies, at some level. On the path to digital transformation, businesses enjoy flexibility, scalability, and improved control and visibility.

By modernizing your mainframe environment to take advantage of a hybrid cloud strategy, your business can adopt more innovative approaches and improvements to:

- DevOps
- IT Automation
- Application Integration/API Strategy
- Security
- Skills and Hiring
- Cost Optimization
- Agility
- User Experience (UX)
- Data Access
- Sustainability

Mainline Helps with Your Modernization Journey

Mainline offers app containerization and modernization expertise, including Open Source container technology like Kubernetes and automation solutions such as Red Hat Ansible to deliver the modernized mainframe environment your business needs.

And our award-winning IBM Z expertise is top notch. As the largest IBM zSystems Business Partner, Mainline delivers enterprise Z solutions to hundreds of customers across the US. Our Architects, Engineers, and Capacity Analysts bring decades of experience to your engagement.

We deploy new workloads such as cloud, analytics, and mobile on IBM Z and we modernize your existing apps to improve your data access, increase efficiencies, enhance UX, and keep you one step ahead of your competition.

Innovate your approach with mainframe modernization from Mainline.

Mainline can help your company with assessment, consultation, and implementation of modern, containerized applications and data environments on IBM Z.
