Mainline®

Your Trusted Technology Partner

Modern Data Center

Thrive in Complex Hybrid IT Environments

Modernize your infrastructure and unlock the full potential of your owned data.

MODERN DATA CENTER SIMPLIFIED

Maximize the potential of the investments you've made in your data center technology.

Mainline's experts will transform those investments into modern, future-ready assets that enhance agility, boost efficiency, reduce costs, strengthen security, and elevate your business's competitive edge.

Confidently Bridge the Gap Between Traditional Infrastructure and Advanced Hybrid and Multi-Cloud Solutions Without Outpacing Existing People and Processes

Mainline Modern Data Center delivers agile, integrated systems that drive innovation, adaptability, and seamless performance in today's evolving IT landscape.

Effective Established Environment Modernization

End-to-end modernization solutions—from strategy and design to deployment and management—help ensure seamless transformation and sustained operational excellence.

Effective Data Management and Protection

Essential to the security, continuity, and strategic value your business needs in the modern, data-driven enterprise.

Reliable and Trusted Solutions

Enable long-term success by focusing on driving your business forward rather than just maintaining your IT infrastructure.

Our Integrated Solutions Approach Positions You and Your Business for Innovation and Industry Leadership

- **Enhanced Operational Efficiency**
  Mainline automates tasks and optimizes resources, enabling IT teams to focus on strategic goals and boost productivity.

- **Cost Optimization**
  Mainline balances established and modern systems to reduce costs, maximizing the value of existing investments.

- **Scalability and Flexibility**
  Mainline's hybrid cloud solutions offer scalable resources that adapt to growth, meeting changing business needs.

- **Security and Compliance**
  Mainline helps ensure modernized systems are secure and compliant, protecting data and infrastructure.

- **Innovative Solutions**
  We're leveraging the power of emerging next-gen technologies with traditional systems to deliver modern, purpose-built hybrid cloud solutions that drive efficiency and adaptability.

The Mainline Difference

No one brings more experience to the data center than we do—delivering speed, and confidence.

Our competency and customer focus enables you to move confidently into SaaS and cloud solutions while maintaining an ability to manage and protect key business services and leverage your prior investments in people, networks, compute, and storage assets.

Competency
We specialize in legacy systems, optimizing on-prem IT with expertise few competitors match.

Customer Focus
We prioritize customer success, driving outcomes that build lasting trust.

WHAT YOU CAN EXPECT

- ✓ Increased System Uptime and Availability
- ✓ Decreased Time to Deploy New Applications or Services
- ✓ Greater Cost Savings and Reduction in Total Cost of Ownership (TCO)
- ✓ Elevated Resource Utilization Efficiency
- ✓ Reduced Security Incident Frequency and Resolution Time
- ✓ Provide Simplification by Reducing Complexity During Modernization

Experience & Delivery
Executes between 100-120 active services projects in any given quarter

Expertise
60 certified engineers and dedicated professionals
